

Mukhammadi Toshtemirov

FullStack Web Developer

I solve problems, automate things, and help businesses and people to grow and improve life. I am always open to collaborating on projects and innovative/disruptive ideas. To find out more about me & feel free to connect with me here:

WORK EXPERIENCE

Full stack developer

Jan 2023 – Present

HomeDev Agency, Tashkent

- I developed the backend part of the "HomeDev" website using express.js technology
- I developed the frontend part of the "HomeDev" website using vue.js technology
- I added "multilingual" functionality to the website using the i18n package
- I have created an admin panel to manage the website

Full stack developer and mentor

Oct 2021 – Aug 2022

"Buyuk Bilim" Learning Center, Samarkand.

- I used to teach frontend technologies to students here
- I created the website of the educational center. The website consisted of frontend, backend, and small admin panel parts. It was one of my first things
- The project has been tested and installed on the host server

Frontend developer and technical worker

Sep 2021 – Sep 2022

Library of SamTUIT, Samarkand.

- The frontend of the library website was created by me
- Based on the given requirements, the UI design of the library website was developed
- Based on the design, the frontend part of the website was created
- Software for determining general statistics of site visitors has been developed on the basis of Yandex services

PRACTICE & INTERNSHIP

Full stack internship

March – Apr 2023

"Najot Ta'lim" Learning Center, Tashkent

- During the internship, the real project "Akmal express CRM" was assigned to our team and I performed the role of team lead in this team
- I distributed tasks to our teammates and took control of the overall process
- I developed the main pages of the project using vue.js
- I integrated the frontend and backend parts of the project with the help of Pinia state manager

EDUCATION

- Tashkent University of Information Technologies, 2018-2022, Software engineering. GPA: 4.16. Level: Bachelor
- "Najot Ta'lim" learning center 2022-2023, Node.js+Vue.js boot camp course
